## Meet Our Newest Esthetician + Enjoy 20% Off Your First Service!

We're thrilled to welcome Gracie to our team! With a passion for healthy skin and results-driven care, she brings a fresh approach to personalized skincare and waxing services in a relaxing, professional setting.

To celebrate her arrival, we're offering 20% off your first facial or waxing service with her—for a limited time only!

### Why Regular Facials Matter

Whether you're targeting acne, aging, dullness, or just want a monthly refresh, consistent facial treatments at a medical spa offer advanced results that go far beyond what you can achieve at home.

### Benefits of regular facials include:

Deep cleansing + exfoliation for clearer pores

Boosted circulation + lymphatic drainage

Enhanced absorption of active skincare ingredients

Professional-grade exfoliation (like dermaplaning or chemical peels)

Targeted treatments tailored to your skin's needs

Long-term skin health, glow, and confidence

Plus, our med spa uses medical-grade products and equipment that deliver deeper, more lasting results than traditional spa facials.

Ready for a fresh start with your skin?

Book your facial or waxing appointment with Gracie and take 20% off your first visit!

**Offer valid June 2-9 only**

## WHY SUNSCREEN IS YOUR SKIN'S BEST FRIEND – EVERY DAY, ALL YEAR LONG

When it comes to skincare, there's one step that should never be skipped—sunscreen. Often overlooked or reserved only for sunny beach days, daily SPF use is actually the most powerful way to protect your skin and preserve its health, beauty, and youthfulness.

### Why Sunscreen Matters

Ultraviolet (UV) rays from the sun are the leading cause of:

- Premature aging (think fine lines, wrinkles, and sagging skin)
- Hyperpigmentation and sunspots
- Skin cancers, including melanoma

Even on cloudy days or during short walks to the car, UV rays are silently damaging skin cells. The result? Long-term damage that adds up over time—even if you don't see it right away.

### Not All Sunscreens Are Created Equal

Look for:

- Broad-spectrum protection (guards against both UVA and UVB rays)
- SPF 30 or higher for daily use
- Physical/mineral formulas like those from SkinCeuticals, which are gentle, effective, and blend beautifully into the skin

### Pro Tip:

Apply sunscreen as the last step in your skincare routine every morning—and don't forget areas like your neck, chest, and hands.

### Consistency is Key

Daily sunscreen use not only helps prevent damage but also enhances the effectiveness of your other skincare treatments. Think of it as your insurance policy for glowing, youthful skin. Protect today, glow tomorrow. Your future skin will thank you!

Have questions about which SPF is right for you? Stop by or give us a call—we're happy to help you find your perfect match.
